COUNSELOR'S CORNER

All grade levels - if you're interested in a summer job, now is the time to apply! "Summer Job Fair, Streamwood," is a great search term for finding lots of potential employers in one place. See your counselor if you'd like help creating a resume. If you're having any second thoughts about what classes to take next year, now's a great time to see your counselor. *June 1 is the deadline for any changes!*

Seniors - For those college bound - there are still scholarships to apply for. Read the daily e-mails from SHS for lists, and make sure you read the e-mails from your college! Those e-mails will talk about registration, orientation, housing, and your financial aid package. Questions about financial aid? See your counselor. Not planning on college? Your counselor can still help. There's still time for ECC or Harper, trade schools, apprentice programs, or maybe instead of "Summer Job Fair, Streamwood," search on "Job Fair, Streamwood." And still plan to finish the academic year strong. Both the grades and the habits of earning good grades matter!

Juniors - Spring is all about SAT and AP Prep, as well as researching possible colleges. Use Naviance to research and maybe visit over the summer. The earlier you apply, the better, so knowing where you want to apply by August makes a big difference. See your counselor for help searching or figuring out if college or another direction is right for you. And for sure, keep the grades up!

Freshman and Sophomores - What habits have you developed so far? Are you here on time every day? Do you keep up with your homework? These are keys to success in high school and beyond. See your counselor if you need some help with touching up these habits. Use Naviance to do some career research so you have a "why" in mind for all your work at Streamwood. Finally, this spring and summer is a great time to start volunteering if you aren't already. Use "Volunteer, Streamwood" as a search term and see what you find! Volunteering makes a difference in your community, helps you find what you're passionate about, and can make a big difference down the road with college and scholarship applications.
