FOR STUDENTS TO UPDATE THEIR CHROMEBOOKS:

If at any point you plan on having students bring their chromebook devices to school during in person learning this may be something you consider having them do while they are on the district server. Note: In some cases, student devices had to go through multiple updates in a row to get to the most recent version of Chrome (A new version was pushed out in February)

Step 1: Open internet browser.	
Step 2: Open internet settings	× + - Image: Constraint of the second
Step 3: Click on "About Chrome" Step 4: Check for updates and install if needed.
