

U-46 Teacher Data Tools

This document outlines an improved tool that U-46 teachers can use to access student data to inform and differentiate classroom instruction. The new system is called Edvantage and replaces the DASH system

What can U-46 teachers do with the new data tools?

The U-46 teacher data tools can strengthen your **CORE INSTRUCTION**

- Identify key Common Core knowledge areas in which your class as a whole needs better core instruction
- Differentiate instruction and identify knowledge strands with areas of strength and weakness for each student
- Flexibly group students using targeted data
- Monitor student growth for discussions with colleagues and principal
- Increase data transparency

The U-46 teacher data tools can inform how we intervene and/or accelerate student learning at **TIERS II and III**

- Identify students in need of interventions or additional support
- Recommend placement or adjust student schedules based on data
- Inform the MTSS and/or Special Education process
- Increase data transparency

How is the new system different from what U-46 teachers have had access to in the past?

DASH (Old way)

- Login link was hard to find
- Separate user ID and password
- Data was slow to load
- Had to be set up manually to find your students' scores
- Assessment data was the only data available

Edvantage (New)

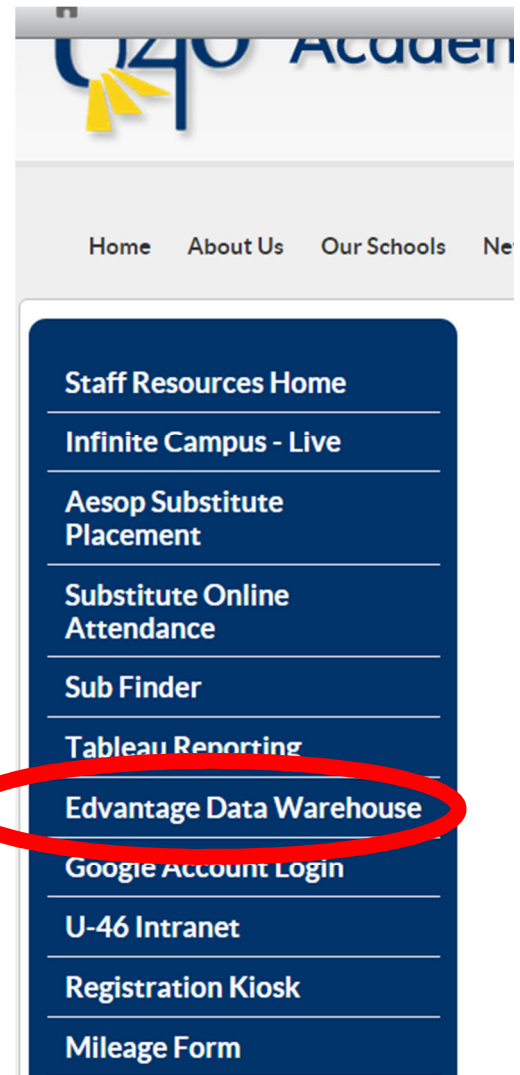

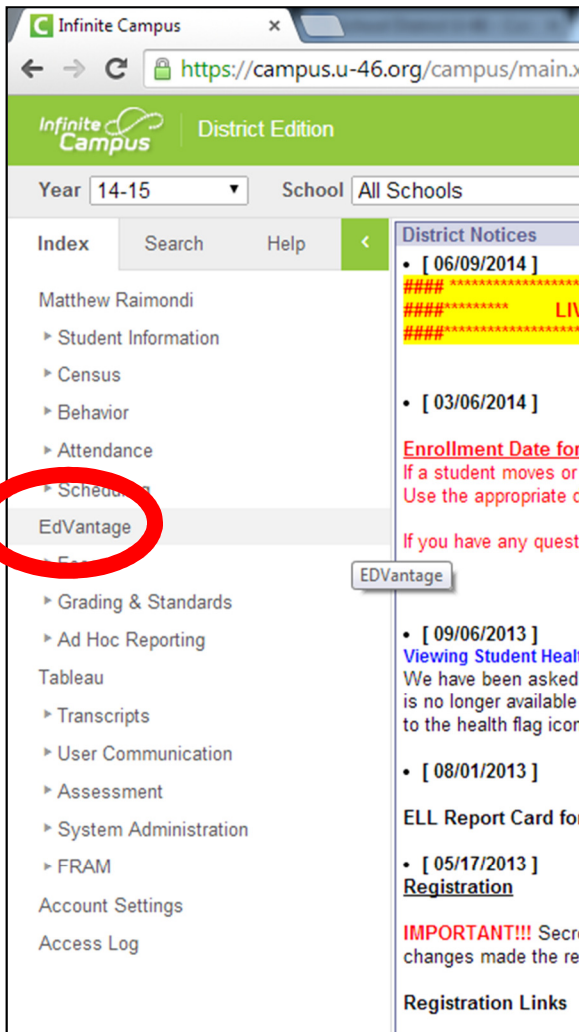

- Login link in Infinite Campus
- Same ID and password you use every day
- Data pops up quick
- Your students' scores are already set up for you
- Assessment data is just the beginning

Step 1 – Go to Edvantage

• **Option A** – Infinite Campus

• **Option B** – Staff Resources

This is best done in Google Chrome.

Step 2 - Log into Edvantage

Welcome!

Please enter your username and password for the **Edvantage** Dashboard.

Login

Cancel

Important Information

You must have a valid username to enter the Edvantage Dashboard. Please contact your Administrator if you have forgotten your username or need one established.

Browser Recommendations

To effectively use the Edvantage Dashboard, we recommend:

- [Microsoft Internet Explorer](#) (8.0 or higher)
- [Mozilla Firefox](#) (3.6 or higher)
- [Google Chrome](#)
- [Apple Safari](#) (3.0 or higher)

Use your **Novell** username and password. This is how you log into U-46 computers.

Ex.

Username: johnsmith

Password: 123456

Assessment Roster

Welcome

Teachers - Student Search

Assessment Roster

My Course: [ALL] Grade: [All Grades] Ethnicity: [All]

0089- Sem:1 T:1 Per:001-AP STATISTICS
 0089- Sem:1 T:1 Per:002-ACAD HON NTR MATH 2
 0089- Sem:1 T:1 Per:003-AP STATISTICS

Administration: [ALL] Score Type: [All] Product: [All] Subject: [All] Test Year: 2013-2014

FALL Composite IMAGE Spelling [All]
 WINTER [All] ISAT English 2014-2015
 SPRING Strand SUPERA Reading 2012-2013

Student Roster for assessments in selected year

Name	ACCESS Read - 2013-2014	ACCESS Write - 2013-2014	AP ENGLAN - 2013-2014	AP USHIST - 2013-2014	EXPLORE Composite - 2013-2014	EXPLORE English - 2013-2014	EXPLORE Math - 2013-2014	EXPLORE Reading - 2013-2014	EXPLORE Science - 2013-2014	AP WDHIST - 2013-2014	AP PSYCH - 2013-2014	AP CALCAB - 2013-2014
			3	4								
					23	23	24	24	22			
					22	22	25	19	20			
			3	4								
					24	25	25	24	22			

You will then see your Assessment Roster. The default is to show ALL of your current students and their SPRING test scores from last year. It can seem overwhelming at first, but can be filtered down to suit your individual needs. The next few pages will help you through these steps.

Student Filtering

Student Filters

The screenshot shows the 'Assessment Roster' interface. A red box highlights the filter section with the following options:

- My Course:** 0089- Sem:1 T:1 Per:001-AP STATISTICS, 0089- Sem:1 T:1 Per:002-ACAD HON INTR MATH 2, 0089- Sem:1 T:1 Per:003-AP STATISTICS, 0089- Sem:1 T:1 Per:005-ACAD HON INTR MATH 2
- Grade:** [All Grades]
- Ethnicity:** [All]

Below the filters is an 'Apply Changes' button. The main table below shows student scores for assessments in the selected year.

Name	ACCESS Read - 2013-2014	ACCESS Write - 2013-2014	AP ENGLAN - 2013-2014	AP USHIST - 2013-2014	EXPLORE Composite - 2013-2014	EXPLORE English - 2013-2014	EXPLORE Math - 2013-2014	EXPLORE Reading - 2013-2014	EXPLORE Science - 2013-2014
			3	4					
					23	23	24	24	22
					22	22	25	19	20
			3	4					

Course, grade, and ethnicity filters are available. You may select multiple courses by holding down the 'Ctrl' key and clicking on each course. These filters will only change which students appear.

Then click 'Apply Changes' to update your roster.

My Course – The current course the student is in

Grade – The current grade the student is in

Ethnicity – The ethnicity of the student

Assessment Filters

Assessment Filters

The screenshot shows the 'Assessment Roster' interface. A red box highlights the filter section with the following options:

Administration	Score Type	Product	Subject	Test Year
[ALL]	Component	[All]	[All]	2013-2014
FALL	Composite	IMAGE	Spelling	[All]
WINTER	[All]	ISAT	English	2014-2015
SPRING	Strand	SUPERA	Reading	2012-2013

Below the filters, the table shows 'Student Roster for assessments in selected year' with columns for Name, ACCESS Read, ACCESS Write, AP ENGLAN, AP USHIST, EXPLORE Composite, EXPLORE English, EXPLORE Math, EXPLORE Reading, and EXPLORE Science. A blue box obscures the 'Name' column.

These filters will change which Assessments appear. These may be multi-selected the same way by holding down the 'Ctrl' key.

Administration – Period of year the test was taken. This can be done to focus in how the students did at a certain time. For example, selecting Spring will show all assessments administered at the end of the school year

Score type – Component and Composite are the default values. These generally show the 'Overall' score. For more detailed results, you may select 'Strand'. This may result in a table that is very wide and require exporting to Excel. It is best used in conjunction with a specific subject or test (ie selecting Math and Strand to see detail on Math tests only)

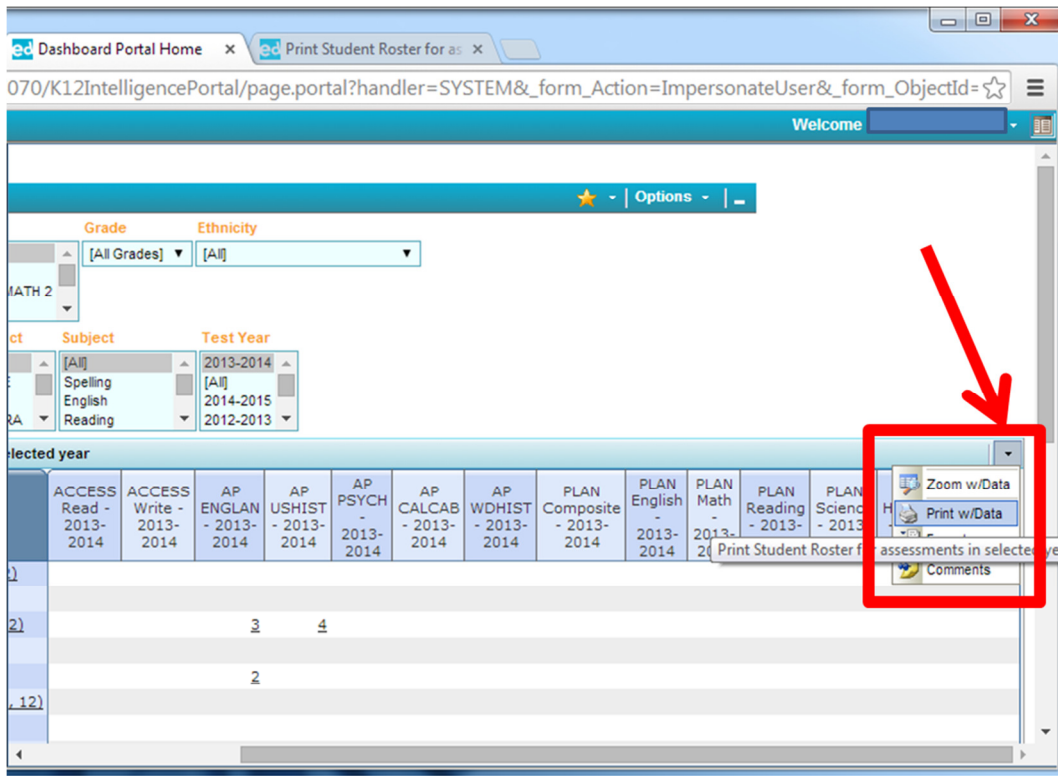

Product – Here you can select the main type of test (MAP, ISAT, AP, PSAE, ACT etc)

Subject – Here you can select the subject of the test

Test Year – This defaults to the previous school year. To see further back or the current year, requires selecting those years. You can multi-select here if you want to see how the students have progressed over time. You may only go back a maximum of 4 years.

Exporting and Printing Options

You may have to **scroll to the right** if you have a wide table. Select the arrow to see your options.

Zoom w/Data – This can be clicked once and makes the font only slightly larger.

Print w/Data – This is a good option for 1-2 classes at a time. It will first open another tab ready to print. Then you can print directly from the browser. This is the best printing option.

Export to Excel – This is also a good option if you like to manage your own data. It will download the file with color and formatting similar to how it appears.

Export to PDF – This is only useful if your data is not wide. If you have more than 4-5 tests, it will not create a useful file. The student names become too long and run into the test scores. It is actually better to select 'Print w/Data' and then using the 'Save as PDF' option when printing from Google Chrome.

When using the Export functions, these will generally pop up in a New Window. If you are clicking it and not seeing the files, it is most likely in another Browser window. Check and see if they are appearing in the background.

Link to Student Details

This page is best for finding an individual student. It involves 3 main steps.

1. Fill in the *Search Fields* to narrow your search.

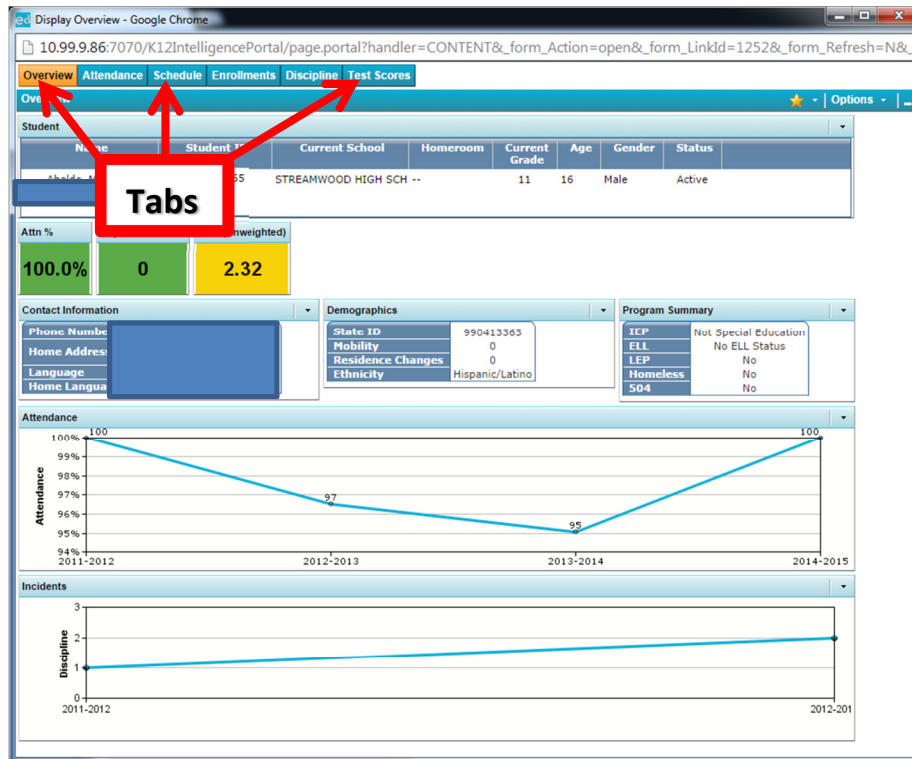

2. Click the  Go Button in the top right to active your search.

3. Click the  Button next to the student's name.

STUDENT DETAILS

Other Available Information

Other detailed information can be found on each student in Edvantage. Student Details can be accessed by: a) *Clicking on a student's test score* or b) finding them *in Student Search*. The available tabs and descriptions are as follows:

Overview – Basic demographics, % Attendance (only accurate from 2012-2013 to current), and Overall discipline counts.

Attendance – Detailed attendance report

Schedule – Detailed schedule report

Enrollment – Enrollment summary

Discipline – Referral history

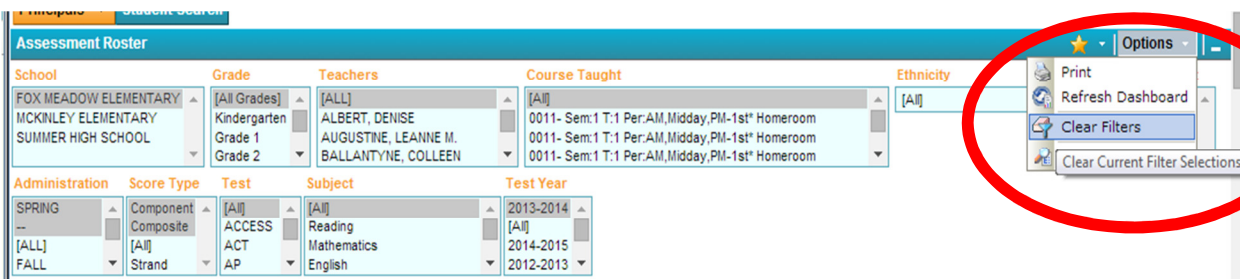

Test Scores – Detailed test score history of student

- includes alphabetic value of F&P Text Level
- Filters do not apply when exporting or printing

Additional Information

- Login issues
 - If login issues persist, contact HelpDesk x4295
- Data availability
 - Assessment data is loaded after the assessment window closes
 - Student rosters and class lists are updated nightly from Infinite Campus
- Refreshing dashboards
 - In the upper right, click ‘Options’ – ‘Clear Filters’
 - Also logging out and logging back refreshes the dashboards

- Submit ideas and feedback to the *Data Dashboard Team* at

edvantage@u-46.org
