RE: Summer School Opt In / Out for Transportation:

Dear Parents,

The summer school session is fast approaching. This year, the U46 transportation department will give you the option of accepting or denying school bus transportation for your student. This will help the transportation department set up the proper amount of routes and insure all students are taken care of this summer.

Please note that once a decision has been made, you may not change it for the rest of the summer school session.

If my student qualifies for transportation, I Choose:

to **ACCEPT** U46 summer school transportation.

to **DENY** U46 summer school transportation.

Student Name

ID Number

Signature

Date

Thank You,

Transportation Department
